SKILLS

- Software Architecture and Design
- Technical Leadership
- Distributed Systems Development
- API Design and B2B Systems
- Strategic Problem Solving
- Cloud Integration and Security
- Enterprise SaaS Solutions
- Team Leadership and Mentoring
- Product Management
- Collaboration
- Agile and DevOps Methodologies

PROFESSIONAL SUMMARY

Strategic and hands-on technology leader with a robust track record in software architecture, cloud-native systems, and enterprise SaaS platforms. Proven capability in leading engineering teams to deliver large-scale, high-performance distributed systems. Expertise in defining architectural strategies, overseeing technical specifications, and ensuring alignment with business goals. Committed to driving innovation and digital transformation through advanced architecture and integration practices.

EXPERIENCE

Logisoft

Chief Technology Officer | August 2021 - Present

- Architect enterprise SaaS platforms utilizing containerized microservices, cloud-native architectures, and API-first design patterns.
- Lead and orchestrate distributed development teams across frontend, backend, mobile, and cloud infrastructure domains.
- Implement CI/CD pipelines and DevOps practices that compress deployment cycles from weeks to hours.
- Architected APIs and hybrid database strategies to optimize scaling and performance.
- Ensured 99.9% system uptime and enhanced security frameworks for enterprise clients.
- Establish cloud security protocols and compliance frameworks for enterprise clients.

Win Assist NGO (Volunteer)

Chief Information Officer & Strategic Advisor | January 2024 - Present

- Pioneered digital transformation strategies and technical solutions for supporting non-profit initiatives.
- Collaborated on cross-domain programs integrating technology, sports, and rehabilitation efforts.
- Partner in establishing the "Basketball for Life" program - a rehabilitative framework for PTSD victims.
- Bridge technology, sports, and mental rehabilitation domains to strengthen community resilience in the Gaza Envelope.

SELDAT Technology Services

Head of Global Delivery | October 2018 - August 2021

- Managed distributed teams and projects, enhancing operational efficiencies and product delivery.

TECHNOLOGICAL STACK

- **Web Technologies**

RESTful APIs, GraphQL, Web Services, SPA, PWA, Responsive Design

- **AI Technologies**

OLLAMA, Embeddings, RAG, Vector databases, AI Automation, AI-assisted coding

- **Frontend**

HTML5, CSS3, SASS, JavaScript, jQuery, Angular, React, Next.js

- **Cloud & DevOps**

Linux, Zabbix, Docker, Docker Swarm, Kubernetes, Nginx, RabbitMQ, Cloudflare

- **Backend**

Node.js, Express.js, PHP, Lumen, Laravel, WordPress, API Gateway, Microservices

- **Databases**

MySQL, MongoDB, Redis, PostgreSQL, Hybrid Database Systems, Data Warehousing

- **CI/CD**

GitHub, GitHub Actions, GitLab, GitLab pipelines, Jenkins, Continuous Deployment

- **Cloud Security**

Identity Management, SSL/TLS, Pen Tests, Security compliance

- **Collaboration & Productivity**

Jira, Confluence, Notion, Obsidian, N8N, Slack, ROOCODE, MCP

- Developed modular architecture for enterprise resource planning and logistics management systems.
- Led Implementation, Product Analysis, Development, and Pre-sales functions.
- Directed cross-functional teams in Implementation, Product Analysis, Development, and Pre-sales functions, ensuring full lifecycle management (SDLC) and aligning technical solutions with business objectives.
- Functioned as the Product Director for a robust, cloud-based ERP and Logistics software suite, leading product strategy and execution.
- Established verification protocols that reduced integration errors by 40%
- Served as Product Director for comprehensive cloud-based ERP & Logistics software suite.

eWave Mobile (JDA-RedPrairie)

Implementation Team Manager | June 2015 - July 2018

- Provided necessary support and guidance to team members in order to meet organizational goals.
- Maintained strong relationships with team members to ensure team success.
- Coached, mentored, and trained staff to improve performance, increase productivity, and maximize efficiency.
- Led technical implementation teams delivering concurrent enterprise WMS projects while maintaining 95%+ customer satisfaction.
- Managed cross-functional teams of technical experts, project managers, and implementers across multiple project phases.
- Recognized with the JDA Real Results Award (2017) for the successful SodaStream implementation.

UPS

Technologies Projects Manager | January 2012 - April 2016

- Established quality assurance processes to ensure successful outcomes.
- Analyzed data to determine trends or patterns that could improve efficiency.
- Demonstrated strong leadership capabilities in motivating teams to achieve common goals.
- Served as technical liaison between senior executives and development teams, translating business requirements into technology solutions.
- Engineered transition from legacy systems to modern cloud-enabled solutions across UPS's technology landscape.
- Reduced data latency by 60% and improved logistics visibility through Automation and integrations.

TEVA Pharmaceuticals

Business Applications Analyst | March 2009 - December 2011

- Led integration of pharmaceutical supply chain processes with enterprise SAP ERP system, designing and implementing FDA-compliant logistics workflows that connected automated warehouse systems.
- Played key role in establishing Teva SLE central logistics center in Israel.
- Managed technical workshops bridging logistics, manufacturing, Pharmaceutical-QA, and vendors.

- Developed comprehensive functional specifications and QA scripts for enterprise business applications.

EDUCATION

2019

MBA in Master of Business Administration

Ben-Gurion University of the Negev

2010

B.Sc in Information Systems Engineering

SCE College

Honored Student for Academic Excellence

MILITARY SERVICE

IDF - Israel Defense Forces | 2003 - 2006

C4I Sergeant Major, 8200 Intelligence Corps & Northern Command

- Certified as a communication systems technician.
- Developed leadership, discipline, and technical expertise in complex, high-pressure settings.
