SKILLS

- Open Source
- Cloud Architecture
- Technical Leadership
- Software architecture
- Coding Supervisor
- Cloud strategy management
- SaaS Development
- Staff management
- Enterprise Architecture

TECHNOLOGICAL STACK

- **Cloud & DevOps**
  Advanced
  AWS, Linux, Docker, Docker Swarm, Kubernetes, Nginx, RabbitMQ, Cloudflare

PROFESSIONAL SUMMARY

Innovative technology leader with extensive experience in cloud-native architectures, open-source technologies, and enterprise SaaS platforms. Proven expertise in orchestrating distributed development teams and translating complex technical concepts into measurable business outcomes. Delivering high-availability (99.9% uptime) mission-critical applications through progressive web technologies, containerization, and microservices architecture. Passionate about cloud security, scalable solutions, and digital transformation.

EXPERIENCE

August 2021 - Present
Chief Technology Officer
Logisoft

- Architect enterprise SaaS platforms utilizing containerized microservices, cloud-native architectures, and API-first design patterns
- Lead and orchestrate distributed development teams across frontend, backend, mobile, and cloud infrastructure domains
- Implement CI/CD pipelines and DevOps practices that compress deployment cycles from weeks to hours
- Design hybrid database strategies balancing transactional consistency with horizontal scaling capabilities
- Deliver 99.9% uptime for mission-critical systems through progressive web applications and distributed caching
- Establish cloud security protocols and compliance frameworks for enterprise clients

January 2024 - Present
Chief Information Officer & Strategic Advisor
Win Assist NGO (Volunteer)

- Lead digital transformation initiatives and technology strategy for non-profit supporting IDF wounded soldiers and bereaved families
- Architect web platforms and information systems responsive to organizational needs
- Apply enterprise-grade methodologies to create sustainable technical solutions with limited resources
- Partner in establishing the "Basketball for Life" program - a rehabilitative framework for PTSD victims
- Bridge technology, sports, and mental rehabilitation domains to strengthen community resilience in the Gaza Envelope

October 2018 - August 2021
Head of Global Delivery

- **Web Technologies**

  Advanced

  RESTful APIs, GraphQL, Web Services, Single Page Applications, Responsive Design

- **Frontend**

  Advanced

  HTML5, CSS3, SASS, JavaScript, jQuery, Angular, React, Next.js, PWA,

- **Backend**

  Advanced

  Node.js, Express.js, PHP, Lumen, Laravel, WordPress, API Gateway, Microservices

- **Databases**

  Advanced

  MySQL, MongoDB, Redis, PostgreSQL, Hybrid Database Systems, Data Warehousing

- **CI/CD**

  Advanced

  GitHub, GitHub Actions, GitLab, GitLab pipelines, Jenkins, Continuous Deployment

- **Collaboration & Productivity**

  Advanced

  Jira, Confluence, Notion, Obsidian, N8N, Slack, ROOCODE, MCP

- **Security**

  Advanced

  Cloud Security, Identity Management, SSL/TLS, Pen Tests, Security compliance

SELDAT Technology Services

- Managed distributed teams across three countries and time zones, with direct reporting to SVP of Technology
- Led Implementation, Product Analysis, Development, and Pre-sales functions
- Established verification protocols that reduced integration errors by 40%
- Served as Product Director for comprehensive cloud-based ERP & Logistics software suite
- Developed modular architecture for MRP, Procurement, Import, Inbound/Outbound Logistics, Sales, and eCommerce
- Improved warehouse throughput for clients by 35% while reducing operational complexity

June 2015 - July 2018

Implementation Team Manager

eWave Mobile (Blue Yonder/JDA-RedPrairie)

- Provided necessary support and guidance to team members in order to meet organizational goals.
- Maintained strong relationships with team members to ensure team success.
- Coached, mentored, and trained staff to improve performance, increase productivity, and maximize efficiency.
- Led technical implementation teams delivering concurrent enterprise WMS projects while maintaining 95%+ customer satisfaction
- Managed cross-functional teams of technical experts, project managers, and implementers across multiple project phases
- Recognized with the JDA Real Results Award (2017) for the successful Sodastream implementation

January 2012 - April 2016

Technologies Projects Manager

UPS

- Established quality assurance processes to ensure successful outcomes.
- Analyzed data to determine trends or patterns that could improve efficiency.
- Demonstrated strong leadership capabilities in motivating teams to achieve common goals.
- Served as technical liaison between senior executives and development teams, translating business requirements into technology solutions
- Engineered transition from legacy systems to modern cloud-enabled solutions across UPS's technology landscape
- Reduced data latency by 60% and improved logistics visibility through Automation and integrations

March 2009 - December 2011

Business Applications Analyst

TEVA Pharmaceuticals

- Led integration of pharmaceutical supply chain processes with enterprise SAP ERP system, designing and implementing FDA-compliant logistics workflows that connected automated warehouse systems

- Played key role in establishing Teva S.L.E's central logistics center in Israel
- Managed technical workshops bridging logistics, manufacturing, Pharmaceutical-QA, and vendors
- Developed comprehensive functional specifications and QA scripts for enterprise business applications

EDUCATION

August 2019

MBA in Master of Business Administration

Ben-Gurion University of the Negev

August 2010

B.Sc in Information Systems Engineering

SCE College

Awards & Honors

- Recognized as an honored student for academic excellence throughout the program

MILITARY SERVICE

November 2003 - November 2006

C4I Sergeant Major

IDF - Israel Defense Forces
Certified as a communication systems technician. Served in the 8200 Intelligence corps and the C4I Northern command
